Quality Comparison Worksheet (Tier)

FTAP Quality Comparison

Exam	PROBING	
	FTAP Avg	SNM's Score
PTT	240	270
PTI	300	300
Proficiency	400	400
Command	400	400
Rate	200	200
MCMAP	900 - Tier 2/3	900 - Green Belt
Retention Promotion	50%	50%
	58%	75%
Legal/History	Zero	Zero
ESUP/1st	50%	50%

Tier Chart	
Tier I (20%)	🏆
Tier II (30%)	🏆🏆
Tier III (20%)	🏆🏆🏆
Tier IV (30%)	🏆🏆🏆🏆

SNM's score ranks below the top 40 percentile of all fiscal year 13 FTAP Marines within MOS 0111. Therefore, SNM is a Tier III Marine.

1. The Computed Tier Evaluation is calculated from the following 6 criteria:

1. PFT Score, plus
2. CFT Score, plus
3. Proficiency Mark x 100, plus
4. Conduct Mark x 100, plus
5. Rifle Score, plus
6. MCMAP Belt Level x 10 (Black = 50 points)

2. One NJP forces a Marine who computes at Tier 1 into the top of Tier 2.

3. Two NJPs forces a Marine who computes at Tier 1 or Tier 2 into the top of Tier 3.

4. A Court Martial conviction makes a Marine Tier IV even if he/she computes the highest score in the MOS.

Marines who rank between the 11th and 50th percentile of their MOS are Tier III. Roughly, 50% of the Marine Corps FTAP population is Tier III.

** The Quality Comparison Score is OBJECTIVE.

** Commanding Officer evaluation is SUBJECTIVE.

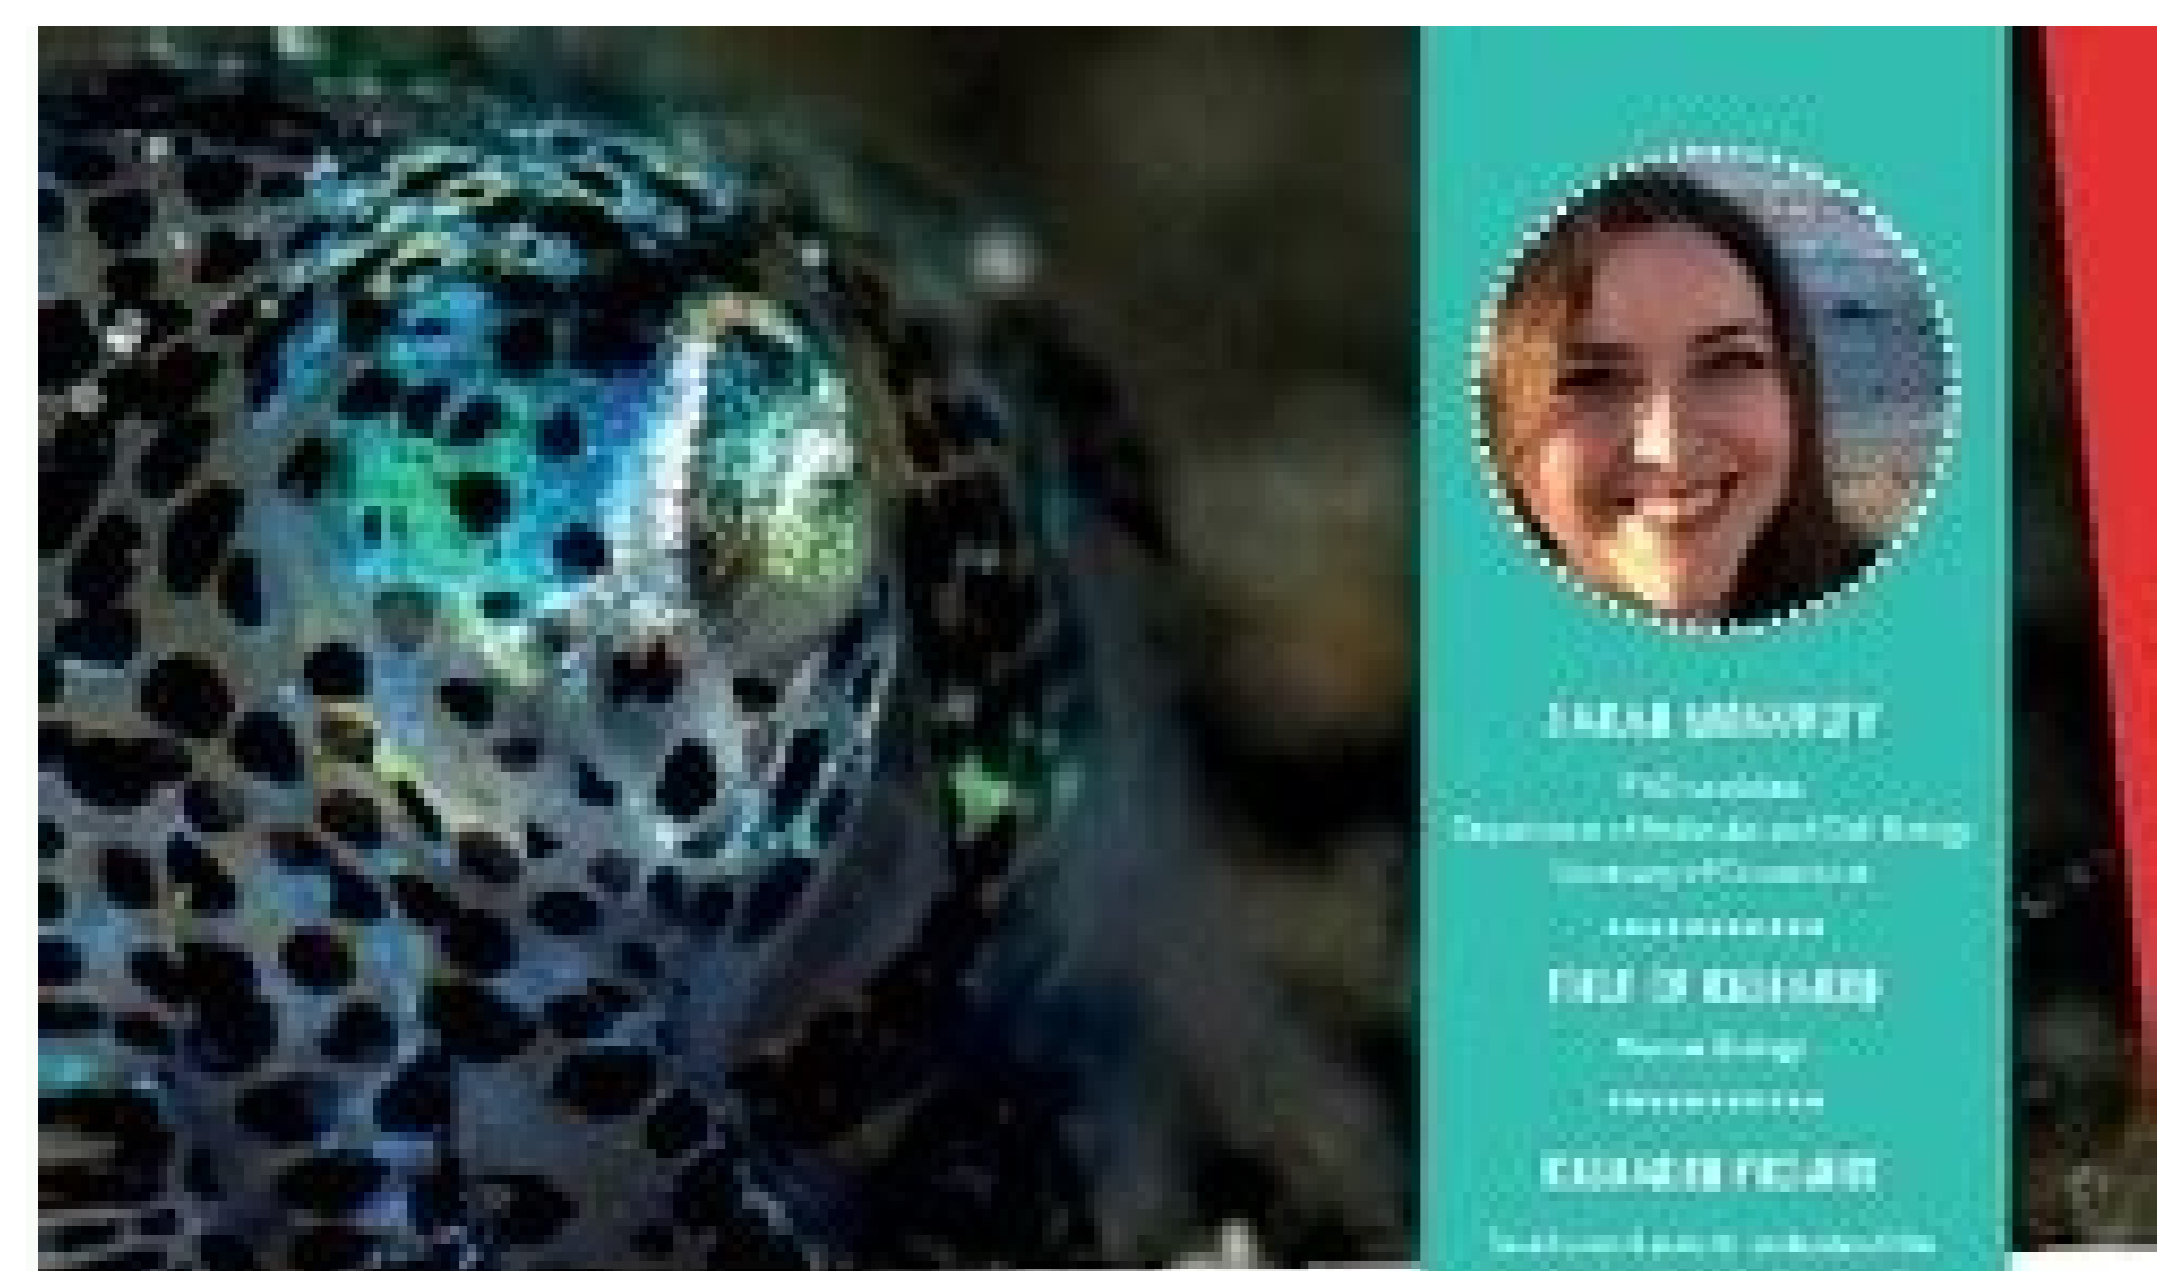

**** The fullest picture emerges by considering BOTH.

WHAT CAN WE LEARN FROM BOBTAIL SQUIP?

BOBTAIL SQUIP (BOBTAIL SQUID) IS A SPECIES OF SQUID THAT IS FOUND IN THE NORTH PACIFIC OCEAN. IT IS KNOWN FOR ITS ABILITY TO CHANGE COLOR AND SHAPE TO MATCH ITS SURROUNDINGS, A TRAIT THAT HAS INSPIRED RESEARCHERS TO DEVELOP NEW MATERIALS AND TECHNOLOGIES.

KEY TAKEAWAYS:

- Camouflage:** Bobtail squid can change its color and texture to blend in with its environment, a process called chromatophore control.
- Bioluminescence:** The squid's light-producing organs (photophores) help it communicate and hide from predators.
- Material Science:** Researchers are studying the squid's skin to create flexible, adaptive materials for robotics and military applications.

FIELD IN EXPOSURE
Human Biology
Environmental Health
EXPOSURE TO POLYCYClic AROMATIC HYDROCARBONS
The study of polycyclic aromatic hydrocarbons (PAHs) is a complex and interdisciplinary field. This research focuses on the environmental and human health impacts of these pollutants, which are found in a wide range of natural and man-made sources. The study aims to understand the pathways of exposure and the mechanisms of toxicity, as well as to develop strategies for risk assessment and mitigation. The research is conducted in collaboration with the National Cancer Institute and the Environmental Protection Agency. The findings of this study will contribute to the development of more effective public health policies and environmental protection measures.

Hell I hyb In the inner compartment of a ship to produce a desired pull or coating. dolphin bridge belt dripping fish plate fwpcä federal water control Act; The United States Federal Statute establishing the legal and financial responsibilities of such persons or companies that discharge or dispose of oil or dangerous substances in or on the navigable waters of the United States administered mainly by the US Coast Guard. Responsible Carrier Programme (RCP) A safety management program of ships developed by the marine industry through the American Waterways Operators (AWO) and designed as a framework to continuously improve the safety performance of the sector. The manifest ship lists various details on each shipment by number B/L. Traffic control of the VTC ship; A central control system used in some ports for direct navigation. Turn the hull plate and its frame forming the vertical end of a box-shaped barge. In addition, the frame plate that forms the stern of a square boat. The signs of pulling the numerical signs to the sides of a ship at the bow and stern, which indicate, at the lower edge of the number, the amount of water that the ship draws. It damages all materials used to block or prepare goods to prevent movement, rubbing or damage and to facilitate its manipulation. THC (Terminal Gestoning Charge Time Charter) A contract for the services of a ship for a certain period of time during which the primary control and management of the ship remain with the owner. ETA estimated time. Hawser a large circle rope used to pick up or moor a ship or to secure it on a dock. Master the captain of a ship, the person who has full charge and authority on board an operational ship. These offices are located in many American ports. Strong, The bar in a central towel cover group, which is drawn against the towel ring to pull the lidistrict. Kevel (horse) A heavy metal bridge with two horn-shaped arms that project towards the outside around which the lines can be made quickly for the trailer or mooring of a ship. Usually it refers to the repositioning of an empty piece of equipment. He creates the act of final positioning and the guarantee of ships that form a trailer. Trannbuckle a connecting device usually used with cable or chain and that detaches itself by rotating on the threads of the screw. Elica a mechanical device with irradiating blades, which is mounted on a rotating tree and guided by the power in order to push a boat; Also called live or wheel. Spud a steel battery that is positioned vertically through a well in the hull of a ship and which, if lowered on the bottom of the navigable street, still the ship. The gross ton (GT) applies to ships, not to the load. Dcouflete of the deck a round steel fitting affixed to a deck of a ship, designed to protect or drive the cables to invent strokes of charlean capstan open call deck kevel comro rolling pocte a roller 62 ä e ä, - ä "dedicated" s) Between two points for the use of a boat assigned exclusively to that movement. A longitudinal or transversal row of steel hull plates is close. Shex Sunday and excluding holidays. Offshore waters a common term for those waters that go beyond the limits of internal waters e They have the technical classification of the oceans. A boat is ä, - ä "dedicated to greater control of the barge movements compared to an" Traffic "trailer, but generally at a higher cost. EMATION OF THE UNITED STATES OF THE RULES dell'Äia, Basic rate/transport rate a tariff term that refers to the lower oceanic rate to accessible charges or simply to the basic tariff rate. AWO members use the RCP as a guide the development of programs of and specific environmental environments of the company also, the after-part extension of a booteÄÄAs keel upon which the rudder rests. Free Time That amount of time that a carrierÄÄAs equipment may be used without incurring additional charges. Shackle A u-shaped metal fitting used as a connection for line, cable, or chain and which has a pin secured through its end by a nut, cotterpin, or screw threads. OCMJ Officer in Charge of Marine Inspections at a U.S. Coast Guard Marine Inspection office. Bollard Pull The static pulling force of a tugboat measured in pounds/tons. Doubler A steel plate installed on an existing structural plate and used as a strengthening base for deck fittings or as a repair of a damaged area. Gunwale (Gunnel) That part of a barge or boat where the main deck and the side meet. Stern The after or rear end of a vessel. Rubrail A protective railing on the hull of a vessel, which is used for fendering. Towboat Any powered vessel used for towing. The U.S. federal statute that establishes the legal and financial responsibilities of those persons or companies that discharge or dispose of hazardous substances on or into land, air, and navigable waters of the U.S. Primarily administered by the U.S. Environmental Protection Agency.Ä Channel That portion of a waterway that is naturally or artificially deepened to permit safe navigation within certain limits.Ä Chock A heavy metal casting through which lines may pass for mooring or towing.Ä A Classification The certification process, as administered by certain international agencies, whereby a vessel is designed, constructed, and maintained, in accordance with an agencyÄÄAs requirements.Ä Ä Clip A small steel bracket onos ialet i iuc a e elartnec aenil alla evan alled azzehgnul al erroc ehc acrab anu id o evan anu id osab 'Äip elarutturts orbmem II leek .otatnemucod "Ä iuc ad Ättic al o evan anu id asac id esab al "Ä ehc elautrop Ättic al otroP emoH .enoizarpir id itisiuger i acificeps e itibus innad led arusim attase'l animretd ehc enigadn'nU innad ,enigadnl .ideip 6706 acric o irtem 2581 a irap amittiram enoizagivan allen atazzilltu azzehgnul id Ätinu'nU octuan oilgM .icibuc ideip 001 id atallenno nu emoc otaredisnoc "Ä änoTÄ ,etnop led ireggessap id oreum li "Ä 2N e ,anibac alled ireggessap id oreum li "Ä Ä IN oigacsep li "Ä d ,otta 'Äip etnop li e evan alled odmf li art aznatsid al "Ä D ,ocirac id inoizmeted elled emulov li "Ä cv evod ,J)01/2N(+ 1N(00001)00001 + TG(52.1 :alumrof etneuges al atnuuga enev ireggessap ivan el rep ,2)D3)04(cv))cv01 gol 20.0+2.0 (YNI otten oiggalienoT ,ovira id ehc aznetrap id otrop la ais itunelnoc e evan alled oigpapiue'leled inoizaraicid eraf a otunet "Ä elanoizantretni erottev II evan alled otsefinaM ,J8737 LOPRAM(8791 led ollocotory lad otacifidom emoc ,3791 .ivan ad otmenanup'leled enoiznevverp al rep elanoizantretni enoiznevnoC alled I otagella'leled 62 etenmaloger lad otisvper emoc ,inoizecce enuclea noc ,ilanoizantretni iggaiv ni atangepmi evan isaislaug ad olortep id elainznetp o aticsurof anu a erednopisr rep aduq eemil id eires anu otavorpmp ah.
